## UGANDA NOW A POWER HOUSE

An aerial view of the 600MW Karuma Hydropower Station, which is strategically situated on the Nile River. The station, which is approximately 2.5km from the downstream Mashindi-Gulu highway, 75km from Gulu, is set to be commissioned today. The tailrace outfall is positioned within Murchison Falls National Park, 9km upstream of the Karuma Bridge. **START ON PAGE 8, 15-PAGE SUPPLEMENT INSIDE.** (Scan the image using the Vision Digital Experience to watch video)
